Friday 5th June	Lucia Schweitzer	Bikash Bhandari
Friday 12th June	Mik Black	Mareiike Erdmann
Friday 19th June	Debina Sarkar	Andrej Paluda

It is expected that most speakers will choose to present an article from the primary literature that is of general significance. Speakers are discouraged from choosing a review as their main article. To help with your choice of paper we have an archive of Journal Club references on the intranet:

<https://blogs.otago.ac.nz/biocintranet/home/journal-club-archive/>

NOTE:

Please contact the reception office to let them know the title of your talk and the reference details of the main to be discussed by the Tuesday prior to your talk. Please email: bioc.reception@otago.ac.nz

It is the speaker's responsibility to find a replacement speaker if the assigned date is not suitable, i.e. find someone to exchange with and advise the reception office of that change.
