

Heart Research Institute

Join today's research to discover tomorrow's cure for heart disease

Are you interested in pursuing a career in **medical research**, while at the same time taking on the **world's number one killer**, cardiovascular disease? Make a difference globally – become a medical researcher with the Heart Research Institute (HRI), an **internationally recognised** institute conducting groundbreaking research.

HRI is hosting an online Open Day to give you the chance to learn more about our **cutting-edge research** into atherosclerosis and thrombosis, the major underlying causes of most heart attacks and strokes.

Network with our world-class researchers – a **diverse team** of bioengineers, physiologists, geneticists, chemists, neuroscientists, clinicians and more – who will talk you through their **latest discoveries** and what it's like to have a **career** in medical research.

For further information and to secure your spot, visit hri.org.au/openday
