

## View a patient's chart history

1. From a Patient file click on the Chart Tab

2. Click the 'H' button

3. The "Tooth History" window will then pop up and you will be able to see the previously completed treatment the patient has received.

The 'Tooth History' window displays a table of treatment records. The table has columns for Date, Provider 1, Location, Complete TP, Particulars, Payor, and Approved. The records are sorted by date and are divided into 'Base Chart' and 'Current Treatment Plan' sections.

Date	Provider 1	Location	Complete TP	Particulars	Payor	Approved
